TUESDAY, APRIL, 5, 1887.

LATE FOREIGN ITEMS

By the arrival of the barkentine Planter news date to March 18th have been received, being five days later than the dates by the

EUROPEAN.

London, March 13.—Advices from Mandalay say that Lieut, Golightly mounted infantry surprised the rebel chief Boshway near Sidolia, Burmah, on the 9th inst. The rebels kept up a heavy fire for some time, but were finally defeated, losing twenty-two men. Boshway escaped.

LONDON, March 14,-News has been received from Emin Bey to the effect that in November last he went to Uganda, and that King Mwanga refused to permit him to go through the country. Then Emin Bey tried to effect a passage out through Karagwa, on the western shore of Lake Victoria Nyanza. In this he failed also. He theu returned to Wadelia, leaving a detachment of soldiers at Unyar, under command of Cassati, his sole

European companion. London, March 15 .- Parnell will not accept Chamberlain's conditions for a reunion. The Irish leader refuses to exclude Ulster from the Dublin Parliament, or the preservation of law from its control. The general feeling now is that the breach reopened may last till Gladstone's death. The only ques-tion is whether Chamberlain is able to dictate, as completely as he thinks, to the radical Unionists, who hate coercion.

LONDON, March 15 .- While the Czar was returning from the requiem services in the Cathedral of SS. Peter and Paul, a bomb attached to a cord was thrown in his direction. The intention was to tighten the string, which was connected with mechanism, and thus explode the bomb; but before it could be executed the criminal and a suspected ac-complice were seized. It was found that they lived together in a lodging house in a suburb of the city. The police visited this house, and discovered there a quantity of explosives and a number of revolutionary pamphlets. Over 200 persons have already been arrested in connection with the affair, and domiciliary visits are being made through-out the city. The German police had warned the Russian authorities that an attempt was to be made against the Czar's life, but the

latter failed to trace the plotters.

A St. Petersburg dispatch says: On Sanday the route which was to have been taken by the Czar was crowded with gaily-dressed people. Before the Imperial party left the fortress the police telegraphed that they had grave suspicions that violence would be attempted, and advised their Majesties to change their route. Accordingly the royal change their route. Accordingly the royal party drove by way of the Neva quay, over a circuitous route, avoiding the town; meanwhile the arrests were made at the corner of the Newski Prospect and the Great Morskaia, where the plotters expected the Imperial party would slacken its pace upon turning the corner. The would be assassin is of short stature. He refuses to reply to any greations

any questions. particulars until he arrived at the Gatschena palace. The persons arrested in connection with the constitutional plot indignantly deny that they were in any way connected with the outrage, and repudiate any idea of a conspiracy. Their motto, they say, is:
"The people, with the Czar or against the Czar." They have published a lithographic Czar." They have published a lithographic periodical, composed mainly of extracts from the works of notable writers on constitutional law and political economy. The stat-utes of the society obliged all members to join, at a signal, their chief, in doing their utmost to overthrow the existing govern-

ment and establish a constitutional govern-The Official Messenger publishes the following: Sunday last, at 11 o'clock in the morning, three students of St. Petersburg University were arrested on the Newski Prospect, having in their possession bombs. The prisoners admitted that they belonged to a secret criminal society. The bombs found on them were charged with dynamite. Each bomb was arranged to throw eleven balls, and all these balls were filled with strych-

London, March 16.—A dispatch from St. Petersburg says that two of the six persons arrested on the Newski Prospect are quite young, and that two others appear to belong to the peasant class. All six carried poisons, and it is presumed they intended to commit suicide in the event of their being arrested, but were deprived of any chance by the sud-denness of their capture. Twenty female students of the Bestuchiff Institute are among those arrested in connection with the

London, March 17 .- The police have become alarmed at St. Petersburg. They have been informed that a numerous and wide-spread band of nihilists is ready for imme-

refer to an earthquake on Saturday around Pezelram, and say that the village of Birkenberg was destroyed, the inhabitants taking refuge in Prague. CALCUTTA, March 17.-The Indian Government intends to station a force on the fron-

tier in the Pishin district, to morally sup-

port the Ameer of Afghanistan.

Bentin, March 17 .- Letters from Prague

BERLIN, March 17 .- One of the Emperor's physicians states that the Emperor's constitution is so wonderfully good that it is hardly necessary to contradict the rumor that he will make the Crown Prince co-Regent. He himself has said that he would stick to his post to the last moment. NEW YORK, March 15.-The Post's London special says: The public are badly informed here of the preparations of Austria and Ger-many for immediate war. A correspondent just arrived from Cracow informs me that

10,000 men are engaged night and day in fortifying that place. Austria's preparations for war are hercalean, but late. Germany, on the other hand, is prepared to start a campaign to-morrow. Army contracts are signed, officers have sealed marching orders, and the expectation of immediate war is almost universal. Her state of readiness is perfect, with not a gaiter button wanting to the equipment of the army, Business is completely suspended. Com-mercial relations have been so much disturbed that opinion favors the immediate release from the tension in Germany.

Notwithstanding rumors of the probable violation of Belgian territory, the feeling is that the campaign will be conducted, as in 1870, on the Alsace-Lorraine frontier.

France is not so ready for war as Germany will be. It is thoroughly understood that if war breaks out in the west of Europe it would be begun by Germany, for tactical and diplomatic reasons, to neutralize Franco in the event of an Austria-Russian conflict. Lospon, March 17 .- Vienna specials touight state that the army is being rapidly armed and drilled with new magazine rifles. The fourth division of 700,000 men of the German army has been equipped, and is being drilled with the new weapon. Krupp's

In this document he charges the Bulgarian Regency with creating civil war and shooting people indiscriminately in Silistria and elsewhere. He demands that the Saltan, as suzerain, take immediate action to remove

the Regents and put an end to anarchy.

The Grand Vizier, not recognizing Zankoff's status, intimates his readiness to consider any communication Russia may officially make through her recognized repre-

sentatives.

The Bulgarian Regents have placed the whole of the fortresses and garrisons on the coast and river frontiers under martial law. and no one unable to give a satisfactory account of himself is allowed to enter or leave the country. The new submarine works for harbor defenses are practically completed. The torpedo flotilla is forming, fortresses are mounting heavy guns, and in material and personnel are brought up to war strength.

AMERICAN.

Bosron, April 14.—A heavily-loaded pas-senger train on the Boston and Providence Railroad met with a terrible accident about 7 o'clock this morning, between Roslindale and Forestville. The accident occurred at what is known as Bussey Park bridge. The 7 o'clock train from Dedham, consisting of seven cars and a baggage car, under the charge of Conductor Tilden, broke through the bridge. The engine and three cars went over safely, but the five others fell through the bridge to the road beneath, a distance of thirty feet. The last car, which was the smoker, turned completely over and struck on top of the others, all being grushed almost out of shape. The smoking-car, after it fell, caught on fire, but the Fire Department was promptly on hand and prevented any spread of the flames. The bodies of the killed were horribly mangled, some of their heads being entirely severed from their bodies, and many of the bodies are crushed beyond recognition.
Twenty-six people were killed, nine fatally injured, and 105 slightly injured. An inquiry into the cause of the accident is to be held.

New York, March 14.—The Tedinae's Ottawa special says: Captain Scott, R. N., Admiral of the Canadian navy and commander of the cruiser Acadia, has completed all arrangements for beginning the fishery pro-tective service on April 11th. The fleet will be considerably increased. The gunners will be picked men from the British navy. The seamen will be drilled two hours daily, and their exercises will include practice at great guns, as well as cutlass and musketry in-

Chicago, March 17.—The Times' Tuscola (III.) special says: Rev. P. M. Donolmo, of Charleston, who was lately made a Lieutenant in the French army by General Box-langer for the discovery of a very destructive explosive for use in torpedo warfars, has decided to call his new invention. Carbonetsa glycerine. He says that it has ten times the destructive power possessed by nigiro-glycerine, and can be handled with a great deal more safety. Рипложения, March 17.—Captain Nowell,

of the steamer British Prince, from Liverpool, makes the following report: On Monday, 14th, at 9:15 a. m., in latitude 40 deg. 1 min., passed a schooner yacht seven miles to northward. At 10:10 a. m., the schooner yacht Dauntless displayed her signals abeam in latitude 39 deg. 55 min., longitude 64 deg. 12 min. There was a strong breeze, and every stich of canvas was being used on both boats. There was at the time the yachts were sighted a strong breeze blowing frem west to northwest. They were about twenty two miles apart. This would indicate the strong breeze blowing frem the strong breeze blowing frem west to northwest. They were about twenty two miles apart. The Czar cried on hearing the danger twenty two miles apart. This would indicate which he had escaped. He did not learn the that the yachts were taking a more southerly course than that pursued by the transatlantic servation was made, the Coronet had made about 600 geographical miles and the Daunt-less about 589 miles. Though the Coronet was eleven miles further to the eastward, she was, on account of her more northerly posi-tion, more than this number of miles in ad-

vance of the Dauntless.

Royal Hawaiian Agricultural Society. At a meeting of the committee of directors of the above society held recently, it was resolved, in view of the many obstacles in the way, that the live stock portion of the ex-hibit be omitted, which was acceded to. A subsequent meeting was held Friday evening last by the committee of directors, to take active measures for carrying out the wishes of the society in regard to the Horticultural Show to be held early in May next. In ac-cordance with the resolution passed in De-cember last, it was ordered that the pro-gramme of the forthcoming show be advertised, and it will shortly appear. In view of the absence of the live stock portion of the show, it was resolved that in addition there snould be added to the horticultural exhibit a show of dairy produce, rice and other grains, poultry and birds. It was ordered that members of the Association and their exhibits be admitted free to the exhibition. The second week in May was named for bolding the show, and the opening day will be announced later. An appeal, by resolu-tion, was made to the President of the Board

of Education to set apart, as a special holi-day, a day to be observed as Arbor Day.

Honolulu Rifles. On Thursday evening the Honolulu Rifles met at their armory for the purpose of organ-izing into a battalion comprising two companies, and also for the election of battalion and company officers. Since Captain V. V. Ashford has taken charge of the Rifles there has been a marked improvement in drill and as obesit is marked in the corps, making it the most proficient in military tactics of all the companies here. The entire number on the roll is now one hundred and six, and so popular is the organization with the young an of the city that new additions are being

In order to make the division Cap. Ashford formed the company into line, and the men called off their numbers—the even ones marching across the room and facing their odd comrades, after which both sections closed up, dressed, and thus formed two com-panies of the Honoiulu Rifles—each company by this method receiving its full share of the raw recruits as well as a fair portion of the The next business on hand was for the

made every drill night.

ommissioned officers to elect a Major for the battalion, which resulted in the unanimous choice of Capt. V. V. Ashford to be the com-manding major. Major Ashford, after con-sultation, made choice of the following battalion officers, viz: Adjutant, Geo. McLeod; Sergeant-Major, S. J. Levey; Drum-Major, W. C. King; Quarter-Master, W. W. Hall. Following this was the election of company officers, as follows:

Company A.—Captain, H. F. Hebbard; First Lieutenant, J. W. Prait; Second Lieutenant, J. Simonson. Company B—Captain, W. Unger; First Lieutenant, (i. C. Strate-meyer; Second Lieutenant, C. W. Ashlord. Company A selected Thursday for its drill night, while Company B chose Tuesdays. By Order of the Major the new recruits of both companies will drill Monday nights. It was also announced that the monthly meet ing of each company would be held next week, when the members would sign the battalion constitution. The Major also au-nounced that private Outembo had presented a bust of the King to be placed in the Armorr, and proposed a vote of thanks to

During the evening, ouffer, lemonade and sandwiches were served to all presents. At the close of the meeting the newly elected officers were sainted with cheeks. The police on Sunday night raked in ten
